Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species, comprising:

Species A: a cutout formed entirely in one of the front and rear body panel webs, the cutout removing a portion of body panel material from the web, as generically disclosed in Claim 1 and exemplified by specie of Claim 2.

Species B: a cutout with at least a portion of the cutout formed in each of the front and rear body panel webs, the cutout removing a portion of body panel material from the web, as generically disclosed in Claim 1 and exemplified by specie of Claim 3.

Species C: a cutout having a substantially circular shape as generically disclosed in Claim 1 and exemplified by specie of Claim 4.

Species D: a cutout having a substantially oval shape as generically disclosed in Claim 1 and exemplified by specie of Claim 5.

Species E: a web in which the first and second cut edges are non-linear as generically disclosed in Claim 1 and exemplified by specie of Claim 6.

Species F: a web in which the first and second cut edges are substantially linear as generically disclosed in Claim 1 and exemplified by specie of Claim 7.

Species G: a crotch member is connected to the garment side surface of each of the front and rear body panel webs as generically disclosed in Claim 1 and exemplified by specie of Claim 8.

Species H: a crotch member is connected to the body side surface of each of the front and rear body panel webs as generically disclosed in Claim 1 and exemplified by specie of Claim 9.

Species I: a web cutting is performed separately from and after forming the cutout in the web as generically disclosed in Claim 1 and exemplified by specie of Claim 32.

Species J: a web cutting is performed separately from and before forming the cutout in the web as generically disclosed in Claim 1 and exemplified by specie of Claim 33.

2. The species are independent or distinct because the various species are mutually exclusive and have acquired a separate status in the art which would lead to diverging fields of search. See MPEP 806.04(f).
3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.
4. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 3761

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
